Candidate Profile

Michał Czyżykowski

Availability: 3 months

Summary

The candidate has 9+ years of experience as Tester. Has knowledge of testing theory (ISTQB Foundation and Test Manager certificate) combined with testing practice. Deep understanding in designing, implementing and managing test processes. His expertise lies in Robotframework and Ready API. Also familiar with Jenkins, MS SQL and GIT. Michał has also a good knowledge of Selenium Webdriver. His programming skills in Java, Groovy and Python are sufficient for a test automation role. Michał also has knowledge of BDD and uses Cucumber on a daily basis.
